INNERSPACE
CHESHIRE

We design, We make, We fit We bring joy

Innerspace Cheshire is based in Whitchurch in the North West of England where we make products that are kind to people, the planet and animals.

Our local, dedicated team of makers hand craft our product range at our workshop. And our installation team travel up and down the country to fit all products nationwide.

Formdesign.

Innerspace Cheshire **Formdesign** wall panels, constructed using CNC technology, are created to make interior spaces truly exceptional, adding a remarkable visual impact while delivering excellent acoustic properties.

Utilising CNC machining, we harness the incredible capabilities of the machinery to form custom patterns with unique finishes. Every panel is individually formed and made to order to seamlessly fit your space.

Formdesign.line

TIMBER RANGE

Formdesign **line** panels are simple and clean. Equally proportioned vertical slats formed into panels with repeating lines that create a sense of rhythm and consistency in a space.

Formdesign.dot

TIMBER RANGE

Formdesign dot panels introduce an interplay of light and shadow, particularly when your interior space is full of natural light sources. The perforated pattern not only creates textural contrast but also enhances the overall visual experience in your space

Formdesign.geometric

TIMBER RANGE

Formdesign **geometric** panels bring a sense of now into your design.

Select one of the five available geometric patterns to complement your interior theme and colour scheme. Even geometric patterns in neutral colour palettes make a significant impact, making them an excellent choice for transitional spaces.

Formdesign.specification

TIMBER RANGE

Specification.

Standard composition.

Felt

12mm PET (Polyester) felt backboard

CNC Panel

10mm Real oak veneer on ZMDF substrate

Wood stained depending on finish choice

OR

Choice of laminate

on a 9mm black MDF substrate

Dimensions.

Made to order.

Weight.

Approx 5Kg / Sqm

Fire.

Felt - Fire Rating EN13501: Bs I, d0

Oak Veneer CNC panel - We can offer a fire-rated lacquer finish to the oak veneer MDF element.

This is **ONLY AVAILABLE ON REQUEST**

- National Fire Class 0 accreditation as well as EN Euro Reaction to Fire, Class B-s1,d0

Design

Formdesign panels are CNC cut with standard 25mm(w) grooves.

Each panel has a felt backboard shadow gap - 25mm all sides.

Panels are custom built to suit your required wall space.

Panel sizes, shadow gaps, groove spacing may have to be altered depending on your chosen space.

Formdesign.sample kit

TIMBER RANGE

Sample kit includes...

Selection of standard material chips plus a sample kit guide card...
