INNERSPACE

CHESHIRE

We design, We make, We fit We bring joy

Innerspace Cheshire is based in Whitchurch in the North West of England where we make products that are kind to people, the planet and animals.

Our local, dedicated team of makers hand craft our product range at our workshop. And our installation team travel up and down the country to fit all products nationwide.

Naturemoss.

Innerspace Cheshire's **naturemoss** catalogue presents real preserved moss walls, with the objective of strengthening the connection between individuals and the natural world. It offers a diverse selection of products that exemplify the inherent versatility of moss!

You get the biophilic design advantages of living wall systems without the expense of watering systems and regular maintenance. And you get the convenience of faux plant systems without the sustainability and authenticity compromises.

no watering.
no sunlight.
no maintenance.

Product Selection.

Naturemoss.forestfloor

BIOPHILIA RANGE

Naturemoss forestfloor is manufactured from a blend of colours and three different species of moss, it is a beautiful, detailed wall finish that feels anything but entry-level.

forestfloor

Naturemoss.lowland

BIOPHILIA RANGE

Naturemoss lowland is a single species creating a lush grassy feel.

Lowland makes an especially good backdrop to signage.

Naturemoss.meadow

BIOPHILIA RANGE

Naturemoss meadow is a more 3-dimensional product. It captures the feel of rolling meadows and can look especially beautiful with the addition of colourful sustainable timber flowers.

Naturemoss **meadow**

Naturemoss.rainforest

BIOPHILIA RANGE

Naturemoss rainforest mid-green panels are manufactured from reindeer moss which is sustainably sourced from Northern Scandinavia in the Arctic Circle. The walls have a lush finish with excellent acoustic properties.

Naturemoss **rainforest** mid-green.

Naturemoss.rainforest

BIOPHILIA RANGE

Naturemoss rainforest dark-green panels are manufactured from reindeer moss which is sustainably sourced from Northern Scandinavia in the Arctic Circle. The walls have a lush finish with acoustic properties.

Naturemoss **rainforest** dark-green.

Naturemoss.foothills

BIOPHILIA RANGE

Naturemoss foothill light-green panels give a 3D texture that is beautifully highlighted by illumination. The light-green colour is vibrant and fresh and lifts any space.

Naturemoss **foothills** light-green.

Naturemoss.foothills

BIOPHILIA RANGE

Naturemoss foothills mid-green panels give a 3D texture that is beautifully highlighted by illumination. The mid-green colour is subtle and looks perfect for larger areas.

Naturemoss **foothills** mid-green.

Naturemoss.foothills

BIOPHILIA RANGE

Naturemoss foothills dark-green panels give a 3D texture that is beautifully highlighted by illumination.

The dark-green colour is sophisticated and rich.

Naturemoss **foothills** dark-green.

Naturemoss.landscap

BIOPHILIA RANGE

Naturemoss landscape is a combination of the Naturemoss lowland and Naturemoss foothills in all three colours. Laid out in an organic wave design, Naturemoss landscape is a favourite with the different textures and colours.

Naturemoss **landscape.**

Naturemoss.landscape+jungle

BIOPHILIA RANGE

Naturemoss landscape+jungle adds our preserved real foliage onto the Naturemoss landscape panels. This gives even more texture and interest to the wall.

Naturemoss.landscape+rainforest

BIOPHILIA RANGE

Naturemoss landscape+rainforest adds Naturemoss rainforest onto the Naturemoss landscape panels. All three species of moss give real interest and depth to the wall.

landscape+rainforest

Naturemoss **landscape+rainforest.**

Naturemoss.woods

BIOPHILIA RANGE

Naturemoss woods incorporates real branches into a new composition of Naturemoss lowland, foothills and rainforest. The contrasting timber and bark of the branches look stunning against the lush green of the moss.
