+ Cork bark inserts

Installation.

Options

Screws

Screwed straight into the substrate wall.

Adhesive

Glued straight onto the substrate wall.

Maintenance.

Options

Dusting

Light dusting should be done to remove any debris that has settled.

Moss Inserts

Moss elements can become dry if humidity is very low - restore comfortable humidity levels and it will become moist again.
If the moss is damaged, the panels can be repaired. Contact us to organise this.
Moss will fade gently in direct sunlight.

We'd love to hear from you.
