## We design, We make, We fit We bring joy

Innerspace Cheshire is based in Whitchurch in the North West of England where we make products that are kind to people, the planet and animals.

Our local, dedicated team of makers hand craft our product range at our workshop. And our installation team travel up and down the country to fit all products nationwide.

## Staves.

Innerspace Cheshire **Staves** are a bespoke range of customisable room dividers. Both aesthetically pleasing and functional in design. A great interior space feature that breaks up large interior spaces, whilst maintaining an open feel.

We offer a choice of timber finishes and different installation patterns that greatly affect the appearance and functionality of the product.

privacy.  
light control.  
natural connection.

# Staves.t-fixing

TIMBER RANGE

Staves **t-fixings** consist of individual structures using an exposed aluminum T-fixing technique to fix into the floor and ceiling. Opt for any spacing or consider angling them to enhance privacy in your area.

Staves.t-fixing

# Staves.**fully-built**

TIMBER RANGE

Staves **fully-built** are complete units with upper and lower timber rails. This is an excellent choice if your designated space presents challenges like a cluttered or high ceilings, making the installation more accessible. The customisation possibilities are limitless – hang Natureverde foliage, adjust the stave angles, or even integrate a swivel mechanism!

add feature Natureverde garlands...

# Staves.fully-built.geometric

TIMBER RANGE

Staves **fully-built.geometric** are units featuring angled staves. They serve as a practical room divider that also makes a bold statement in your interior space. Placed strategically near natural daylight, these geometric units create striking shadows across the area.

To enhance the feature, consider incorporating moss inserts for a touch of biophilia.
