VerdantGrid.biophilia

Verdant Grid tiles are modular by design, allowing you to mix and match natural textures to create flowing organic patterns or structured geometric layouts across any space.

Featuring real preserved greenery and natural textures, together with customisable display panels for logos, photography, or branded content — Verdant Grid is as expressive as it is natural.

Whether used as a single focal point or assembled into a full living wall, Verdant Grid can help bring biophilic design to any space!
