

Biophilia.catalogue

We design, We make, We fit

We bring joy

Innerspace Cheshire is based in Whitchurch in the North West of England where we make products that are kind to people, the planet and animals.

Our local, dedicated team of makers hand craft our product range at our workshop. And our installation team travel up and down the country to fit all products nationwide.

"If you're passing by come meet all the team and our loyal, key member - Penny, the Labradoodle"

Biophilic.design

Biophilic design is all about feeling good—happier, healthier, more connected—by bringing a touch of the wild indoors.

At Innerspace Cheshire, our Biophilia Catalogue is your go-to guide for integrating nature into your interiors. Packed with real preserved moss and foliage, it's designed to help you create spaces that feel alive — even if your plants technically aren't.

You get the lush look and calming vibe of living walls, without the watering schedules and maintenance headaches. And unlike faux plant systems, our preserved greenery keeps things sustainable, authentic, and effortlessly beautiful.

All our biophilic products are centred around the natural materials. With some clever design, our products can live anywhere: on walls, ceilings, floors, balconies, even housed into furniture.

Scroll through the catalogue and discover how easy (and fun) it is to bring nature back into your space.

Biophilia.content

Start by imagining where you'd love a little more green — just one spot or spread across your whole space. From vibrant mosses to lush foliage in all kinds of textures and colours, our catalogue is full of inspiring options to help you start specifying your biophilic design.

Wall.biophilia

Biophilic walls are at the heart of what we do at Innerspace. Whether you're after something clean and monochrome or a bold, show-stopping statement piece, there's a style to suit every vision. From subtle green accents to dramatic, design-led installations that leave people speechless. And don't miss our signature art pieces section!

Floor.biophilia

Big space feeling a little... blah?

Our handcrafted trees, shrubs, and topiary are here to warm things up!
Perfect for breaking up empty corners or adding life to wide-open areas.

We hand craft them to custom heights.

Bonus: they're low-maintenance and even look great styled into furniture.
Got a project in mind? Our team's ready to support you with your biophilic design.

Balcony.biophilia

Balcony biophilia is all about adding lush, trailing greenery that makes people look up—and smile.

Our range features three stunning styles, packed with cascading plants and tall, grassy vibes — each using preserved plants picked for maximum impact.

Not sure what fits your space? Whether it's a balcony, furniture topper, or that awkward corner no one knows what to do with, our team is always happy to guide you through the options and help bring your vision to life!

Ceiling.biophilia

Ceiling feeling a little empty? Let it bloom.

Our ceiling biophilia range includes rafts in plant styles from light and airy to lush and dense - each one thoughtfully crafted with preserved greenery to suit.

Spheres that speak for themselves, and delicate trailing vines as versatile as they are stunning. Drape them from ceilings, wrap them around columns, or let them trail from wires — the sky's the limit. Our team's here to help bring your ceiling to life.

Furniture.biophilia

Furniture is the heart of any interior.

Whether you're unwinding or getting down to business, there's no easier way to bring greenery into your personal space than by integrating it directly into furniture.

Our inserts are both distinctive and well-loved, designed to bring biophilia closer to you. The Biophilia Catalogue includes a range of plant styles that not only complement your furniture, but also add a sense of calm—and maybe even a smile—to your everyday environment.
