Naturemoss.fire rated

Biophilic design is all about feeling good—happier, healthier, more connected—by bringing nature indoors. Our preserved moss offers all the lush texture and calm of living greenery, without watering or maintenance, and now with the added reassurance of a B-s1,d0 fire rating.

This classification means the moss has very limited combustibility (B), minimal smoke production (S1), and no flaming droplets (d0)—making it suitable for projects where enhanced fire performance is essential.

Just like our standard Naturemoss range, this fire-rated version stays authentic, sustainable, and endlessly versatile—ideal for walls, ceilings, furniture features, and more.

Explore how easily you can bring natural beauty into your space, with safety built in.
