CHESHIRE

FOLIAGE & FLOWERS

NATUREVERDE

O & M

SPECIFICATION

Introduction

Innerspace Cheshire NATUREVERDE panels are suitable for internal use.

Specification

Innerspace Jungle, Ivy, and flower wall

Composition	Real preserved foliage and flowers (foliage and flowers may vary) fixed to a 9mm Eco-board carrier.
Thickness	Thickness varies with the natural texture of the foliage and flowers, but is between 100mm and 150mm.
Dimensions	Made to order.
Weight	Approximately 10.00 kg per sq. m.
Suitability	For walls, panels and furniture.

INSTALLATION

Installation

Foliage and flower panels can be fixed from the front with screws or on split battens.

MAINTENANCE

Maintenance

The foliage and flowers do not require any watering, or any light source.

Generally no maintenance is required.

The foliage and flowers can be lightly brushed over to remove any debris that has settled on them.

Care should be taken to avoid damaging the natural material.

The foliage and flowers can be damaged if humidity is very low or very high – restore comfortable humidity levels as soon as possible to avoid long term damage.

If the foliage or flowers are damaged the panels can be repaired. Contact us to organise this.

SUSTAINABILITY

Sustainability

All our foliage and flowers are sourced from sustainable sources where they can regrow each growing season.

Our Eco board is carbon negative and has very low VOC and zero formaldehyde emissions.

All our manufacturing is in our own workshop, run on renewable electricity.

We'd love to hear from you...
