CARPET TILES

We offer tufted carpet tiles from Tecsom and woven carpet tiles from Carpet Concept. Our market position is that of exceptional quality that costs no more than ordinary carpet tiles.

But unlike ordinary carpet tiles all our standard collections are made from new generation bleach-proof 100% solution dyed nylon yarns so they stay looking better for longer and shrug off stains.

Unlike ordinary carpet tiles we only use 100% recycled backing that is more stable and doesn't mark walls and skirting boards, backed up with BREEAM and SKA certification. The finished product is 100% recyclable.

Unlike ordinary carpet tiles we support our standard collection with a real depth of stock – more than half a million square metres ready to go.

And unlike ordinary carpet tiles we offer a custom colour and design service with a rapid turnaround.

And unlike ordinary carpet tiles our Carpet Concept woven ranges offer unique textures, amazing colours and a dozen size formats to allow exceptional creativity.

Tecsom and Carpet Concept are no ordinary carpet tiles – see what the brands can do.

Tecsom Galerie

A luxury cut pile with a difference.

As well as the plush finish and seamless joints that you would expect from a luxury carpet tile, Galerie has an extra trick up its sleeve; it is made from new generation yarn that allows the use of bleach to remove stains.

The twist pile texture gives a really thick, luxurious feel and a depth of colour that only a cut pile tile can provide.

And all that luxury needn't cost the earth; reasonable price points and BREEAM certification are part of the package.

Tecsom Cross

Combining perfectly with Galerie, Cross is a chunky knitted look loop pile carpet tile with a heavyweight construction that achieves the best wear rating possible for carpet tiles.

Ideal for modern commercial interiors, Cross provides everything that you could need in a carpet tile at a reasonable price point.

Tecsom Linear Spirit, Evolution & Decostructure

This family of carpet tiles has it all.

From plain textured tiles, through subtle linear designs to bold stripes and with design options from organic to rectilinear all in easy to combine matching colourways, this family of products is as far from normal carpet tiles as you can get.

Every item is 100% new generation yarn; bleach-proof, fade-proof and durable.

Every item has 100% recycled backing.

Every item is stocked and available from 5 sq m.

Easy to work with, easy to be inspired by, easy to order and easy to fit; Linear Spirit, Evolution and Decostructure make great installations look easy.

The Tecsom Linear Spirit, Evolution and Decostructure range comprises of 95 colours across 26 designs.

Tecsom Microtect+

Minimalist texture in a terrific value package.

As expected, durable, and readily available, our minitufted tile looks great in any installation.

Tecsom City Square

Lots of colours, a heavyweight construction built to last, City Square is in service in many installations across the country. A carpet with real staying power, its colour blend and texture effectively hides stains and wear and like our other ranges, cleanability, availability and ease of use come as standard.

Tecsom Prima & Prima Ligne

More than an ordinary budget tile.
More bulk means better edge coverage.
More stable backing means a better finish.
More stock means less project stress.
More durability and cleanability.

Yes, they are loop pile carpet tiles, but faster sampling, easier availability and no compromise on specification means that Prima has more to offer than an ordinary budget tile. Team them up with our other ranges and they are a perfect canvas for a special interior.

Go off-piste for something really special

If our standard tiles are unlike ordinary carpet tiles, our off-piste collection lets you do something really special.

Carpet Concept Mix

The Mix collection is a stunning selection of textures, colours and even shapes. Woven construction is truly durable and offers unique texture in a carpet tile.

Tecsom Private Label

Special designs from a collection by internationally renowned designers like Tom Dixon, Jean Nouvel and Ron Arad from 40 sq m.

Your own special off-piste design from 5 sq m – just one box. Perfect for logos and individual touches to your project.

GET SPECIFIC

For individual ranges please see the relevant technical data sheet.

All standard ranges;

- 100% new generation solution dyed nylon yarn
- 100% recycled backing
- Suitable for all commercial locations
- 500 x 500 size as standard (special sizes on request)
- 5 sq m per box (20 tiles)

GET FITTING

Please see our detailed installation instructions, available from Innerspace Cheshire.

- The subfloor should be clean, dry and solid.
- Tiles should be acclimatised prior to installation.
- Tiles can be loose-laid due to the exceptionally stable construction. However in heavy traffic areas and under castor chairs we recommend that a tackifier adhesive is used to stop the tiles moving around on the subfloor.

GET CLEANING

Please see our detailed cleaning and maintenance instructions, available from Innerspace Cheshire.
